Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Apply encapsulation principles to a class
- Compare and contrast the features and components of Java such as: platform independence, object orientation, encapsulation, etc.
- Define the structure of a Java class
- Develop code that makes use of polymorphism; develop code that overrides methods; differentiate between the type of a reference and the type of an object
- Differentiate among checked exceptions, unchecked exceptions, and Errors
- Recognize common exception classes (such as NullPointerException, ArithmeticException, ArrayIndexOutOfBoundsException, ClassCastException)
- Use abstract classes and interfaces

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit [certification.oracle.com](http://certification.oracle.com) and select your certification path to ensure you are aware of all certification requirements.
  - Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check [certview.oracle.com](http://certview.oracle.com) to confirm that all completed components are in your profile.
  - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
  - Contact [www.pearsonvue.com/oracle/contact](http://www.pearsonvue.com/oracle/contact) to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
